In a time when information is key and compliance is vital, GlobalVATOnline (GVO) is an essential tool to help navigate the complex world of indirect tax and reporting.

Our **News service** which can be tailored to your targeted interests and delivered either daily or weekly directly to you, generates timely updates on worldwide VAT/GST and customs duty developments.

GVO News App:
Tax Essentials, hosts our GlobalVATOnline news app allowing for tailored push notifications, the ability to bookmark articles for offline reading and more. This new addition is included in all subscription levels, download here:

App Store | Google Play

This service combined with our **GlobeSearch module** provides access to comprehensive, business critical information on VAT/GST rates, rules and requirements in over 80 countries across six continents, giving users coverage of the most relevant indirect tax updates in all its key territories.

GVO's **Tools section** provides subscribers with access to a range of **research modules** designed to assist with the analysis of the legislation, **case law** and the dissection and visualisation of transactional data. **Compliance modules** are also available which cover a range of **online forms**, guides and tools designed to make compliance and reporting easier, thus improving productivity.

These services combined with a **global network** of over 130 specialists will help you to stay current on new developments, mitigate risks and improve the overall effectiveness of your VAT/GST function.

---

globalvatonline.pwc.com offers three subscription levels

01

GVO Standard:

Single user: 2,000 GBP

Multi user (up to 25 users): 4,000 GBP

Multi user (25+ users): POA

This is our standard offering for any organisation needing to be better informed to manage its GST/VAT obligations more effectively

02
